

Cancellation and No-show policy

The following are policies regarding cancellations and no-shows. We take this subject seriously at this clinic because it can make the difference between whether you succeed in your treatment or not. Usually your referring doctor and/or therapist have prescribed a set frequency of treatments. Showing up as scheduled for these visits is your most important job. Other than that, all you need to do is follow your therapist's instructions and we will be able to help you achieve your goals in treatment.

We require 24 hours notice in the event of a cancellation. It is your responsibility, when you call in, to have an alternative time in mind that will ensure you get the full treatment for that week. In some cases this may not work.

We do reserve the right to charge \$35.00 for a cancellation without proper notice. This charge will not be covered by insurance, but will have to be paid by you personally.

You may need to be seen by a different therapist than the one that normally treats you if you rearrange your appointment. All of our therapists are experienced professionals, and they will study your patient chart, so you will be in good hands.

Please understand that your pain will probably increase and decrease as your course of treatment progresses and before you are finally released. Either condition can seem like a reason not to come in; a) you're feeling worse and you feel treatment is not working, b) you're feeling better and it's a great day to go shopping or to sporting events. Neither of these conditions is legitimate as a reason not to come:

- a) If you are in pain, come in and get it fixed.
- b) If you are out of pain, now is the time that we can begin doing some real correction of underlying causes of your problem or educate you so you will not re-injure yourself.

When a patient doesn't show as scheduled, three people are hurt:

- 1) You, because you won't get the treatment you need as prescribed by the doctor or PT.
- 2) The therapist, who now has a space in their schedule since the time was reserved for you personally.
- 3) Another patient who could have been scheduled for treatment if there had been proper notice.

Please cooperate with us in this regard and we will have you out of pain and back to full function as swiftly as possible. We're looking forward to working with you.
